

S.G. Morton
My Dear Sir -

Rec'd March 24 1861
Ans^w April 4

Permit me to introduce to your acquaintance my young friend Mr. William Gambel of this city, who has paid successful attention to both Botany & Zoology. He is on his way to Santa Fe on a Scientific Excursion, & any advice or information you can give him will be gratefully received by him & me.

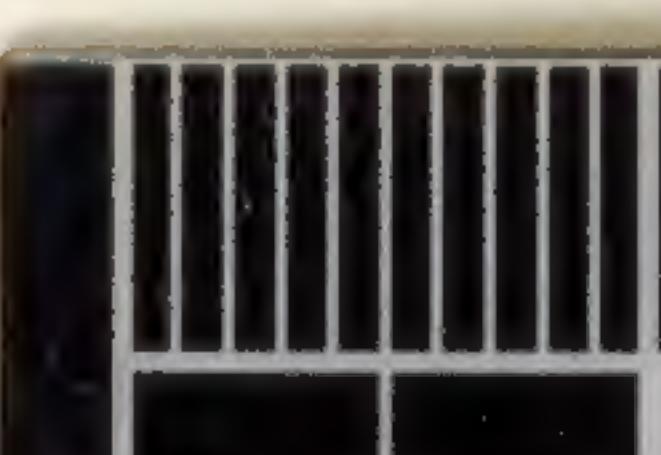

I called as you desired on Mr. Thorpeckin, who had heard nothing of the Box of Crania, but advised me to inquire at the Custom House, which I did, but with no better success, for no such parcel had been received there. If you would forward to me without delay the name of the person in Bremen with whom you left these articles, I will get Mr. T. to address him a letter, in the hope that what I so much value will yet come safely to hand.

I remain, dear Sir,

Very faithfully your friend S.G. Morton

Rev'd Dec 4th 1845

As Nov 29 1847.

My dear Sir -

I have twice written to yourself & Dr. Wistenius, and sent the latter gentleman, through W. G. Carpenter, of this city, a copy of my "Crania Americana", & some minor publications - all which I trust have by this time reached their destination. I can only in addition send the last number of the Academy's Proceedings, in which I have noticed the two skulls sent me by Dr. W. though I have not yet been so fortunate as to lay my hand on his letter. Pray give my best respects to him; and wishing to serve you both as occasion may offer,

I remain, dear Sir, very respectfully
your friend & Servt.

Samuel George Morton

My dear Scⁱ -

I have great pleasure in introducing to
your acquaintance my friend Dr. R. S. Holmes,
who, after several years service as a surgeon
in the army, has resolved to retire to private
life. Any civilities you may show him will
be gratefully acknowledged by him and me.
If convenient, please make him acquainted
with Dr. W. D. Leavenworth (to whom I am under
many obligations & to whom I have lately written)
& to Dr. Leitch & B. B. Brevoort.

It is a long time since you were here.
You should make us a visit if it were only
to see and participate in the progress
of Science.

I remain, dear Scⁱ,

Very sincerely yours

Samuel George Morton

is well set

3 specimens in small box and
sent to Dr. G. C. Hart for examination and
agreed to receive and leave with, after
returning with the box, and it is
now sent with your specimens and gift
and will be forwarded to the Missouri
Botanical Garden when I receive your
specimens and I will be sure to send you
a copy of the paper when it is published.

Yours, G. E. Engelm. 1900
and even my wife and daughter
are anxious to have a copy of the
paper when it is published.

Yours, George E. Engelm.
